what I liked	what I did not like

## WRITING PREPARATION

Consider the questions & your answers above & the character/setting graphic organizer on the back. Which item influenced you the most in why you like the text or film better? Put #1 in the box below under the letter. Which one is the next best? Label that as #2. Continue in this fashion. These numbers will determine in what order you write the paper. You may change it once you start writing, but this will provide you with an outline of what order to put the information in when you write.

**Which do you prefer, the film or the text? Why?** Based on your choices above, write a thesis statement—the main idea of your essay. Write it below. Everything in your paper must support this statement.
