PERSONAL VOCABULARY BUILDING

For each chapter, add at least 3 words to your list that are new to you & are not on the vocab list that was provided to you by the teacher.

Write the word in this column & underneath it, write what you think it means based on how it's used in the sentence in which you found it.	Put the correct definition of it here. Write in a way that makes sense to you—it doesn't have to sound like the dictionary.
