Demographic Changes

Parents can log in and make updates to some of the student demographics fields of data using this page. We can customize it to fit our contact fields. We can also pick and choose what fields to include.

Important note: once the parent submits the change on the portal, the information does not go directly into the database. Instead, there is a secondary process by which an Admin user reviews the parent submitted changes and decides to "accept" or refuse the changes. See second screen shot below.

Different Page Permissions for One Parent's Students

If in our example, Harold's school is set to display Graduation Progress while Olivia's school is not, as the parent toggles back and forth between the students, the Graduation Progress icon will disappear from Olivia's list of Icons. See below.

Harold at the High School
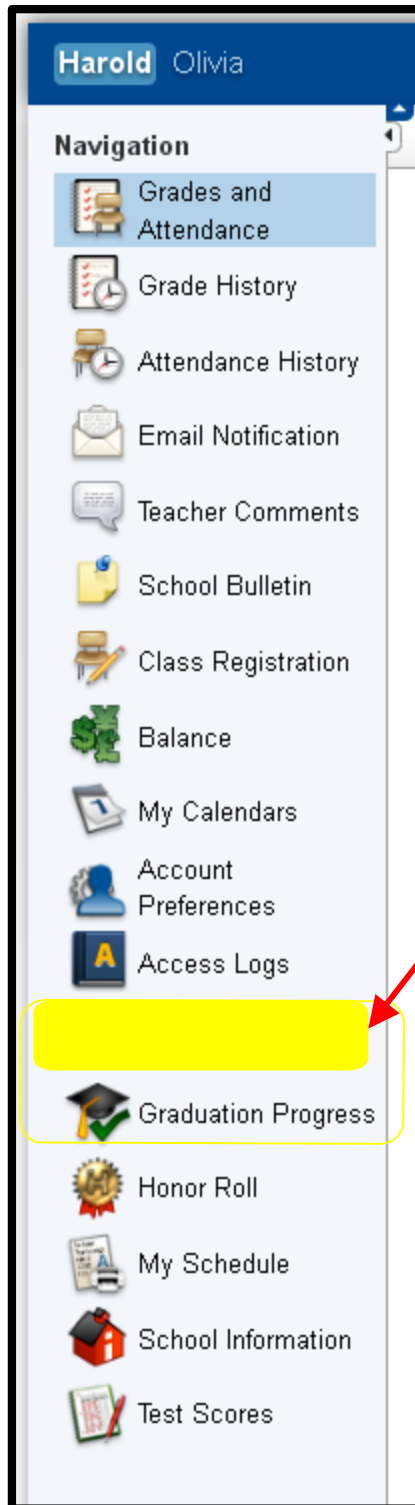

Olivia at the Middle School
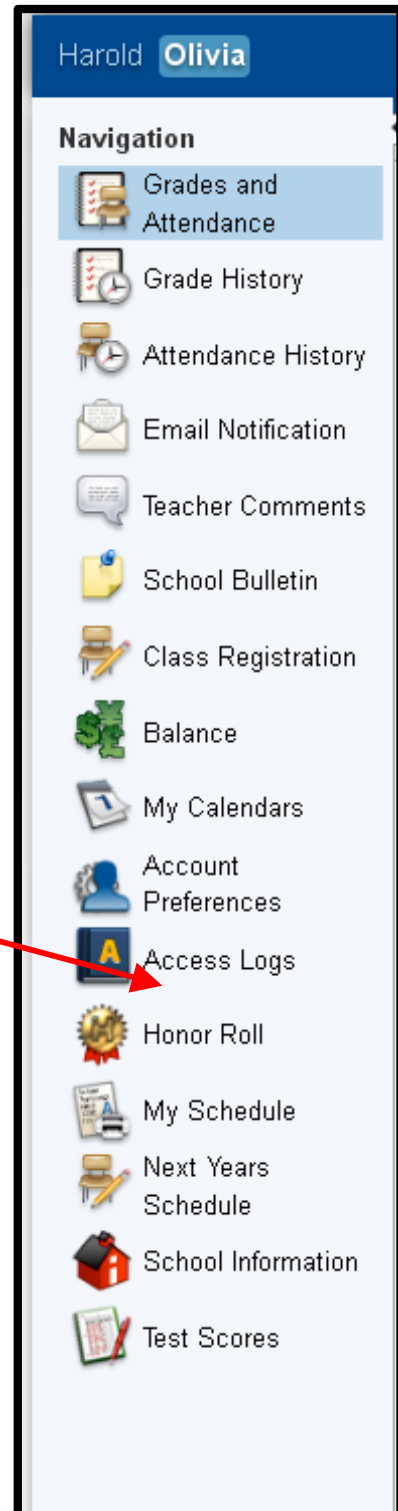

The High School is set to allow parents to view the Graduation Progress and Discipline Info Screens. The Middle School is not.

These icons appear here in Harold's High School list and are missing from Olivia's Middle School list of icons.

As Harold and Olivia's parent(s) switch between them, he/she will see these icons appear and disappear.
